PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience designing and shipping production web applications — from B2B ERP and POS platforms to client projects and freelance work. Specialised in the React.js ecosystem (React, Next.js, TypeScript), I turn complex requirements into clean, maintainable interfaces and collaborate closely with product managers and backend engineers to deliver features that are stable, scalable, and easy to use. Strong engineering mindset with a focus on code quality, performance, and continuous improvement.

PROFESSIONAL EXPERIENCE

Frontend Developer — *May 2024 – Present*
BM Electronics · Full-time — *Tashkent, Uzbekistan · On-site*

- Develop and maintain the frontend of internal business applications used in day-to-day operations, including ERP systems and B2B POS platforms.
- Build intuitive, responsive interfaces with React and Next.js, translating product requirements into clean component architecture.
- Integrate frontend components with backend REST APIs, optimising data flow and state management for performance and reliability.
- Collaborate with product managers, designers, and backend engineers to improve the usability and stability of business-critical web applications.

Freelance Web Developer — *Sep 2022 – May 2024*
Self-employed — *Remote*

- Delivered end-to-end web projects for clients, covering UI implementation, API integration, and deployment.
- Worked across the stack with React / Next.js on the frontend and Node.js + MongoDB on the backend to ship features quickly and iteratively.
- Owned client communication — gathering requirements, providing estimates, and delivering production-ready solutions.

Frontend Web Developer — *May 2021 – May 2022*
Software Systems · Part-time — *Tashkent, Uzbekistan*

- Built and maintained user-facing features in React.js, working from designs and product specifications.
- Implemented responsive layouts with HTML and CSS and integrated them with backend services.
- Contributed to code reviews and team discussions on component structure and reusability.

Web Developer Intern — *Apr 2021 – May 2021*
Software Systems · Internship — *Tashkent, Uzbekistan*

- Learned production workflows around Git-based collaboration and code review.
- Built small frontend features using HTML, CSS, and JavaScript under the guidance of senior engineers.

SELECTED PROJECTS

QQL — Qishloq Qurilish Loyiha *Ongoing · Private*

Enterprise Resource Planning system for project and process management — *React.js · Ant Design · Redux Toolkit · React Query · Vite*

Designing and building an internal ERP platform from the ground up — modelling project workflows, process states, and team-level views into a maintainable React architecture with Redux Toolkit and React Query for server-state management.

BMEL ERP *my.bmel.uz*

Internal ERP for BM Electronics — a distribution company — *React.js · Redux Toolkit · React Query*

Production ERP system used to manage all areas of company staff and operations at BM Electronics — covering employees, roles and access, day-to-day workflows, and reporting across the distribution business.

BM Electronics *bme.uz*

Official corporate website — *React.js · Tailwind CSS*

Public-facing corporate site for BM Electronics, built with React and Tailwind for fast iteration and a responsive, polished UI.

EDUCATION

Tashkent University of Information Technologies (TUIT) *Sep 2019 – Jul 2023*

Bachelor of Science in Software Engineering · GPA: 4.59 / 5.0 (A–) *Tashkent, Uzbekistan*

Activities: VCE Leader of the University Youth Union; two-time winner of the TUIT Zakovat Club Championship; member of university chess, ping-pong, and football teams.

LANGUAGES

Uzbek	Native
English	Professional working proficiency (IELTS 6.5)
Russian	Limited working proficiency

INTERESTS

Algorithms & DSA	Active on LeetCode — sharpening problem-solving and data-structure fundamentals through regular practice.
Chess	Long-time chess player; profile on Chess.com. Two-time TUIT Zakovat champion — I value the strategic thinking and pattern recognition the game builds.
